

***Discussing Pax Germanica***  
***The Rise and Limits of German Hegemony in European Integration***

Ed. by Emmanuel Comte and Fernando Guirao

Routledge, 2024

ISBN 9781032792590

*Discussing Pax Germanica: The Rise and Limits of German Hegemony in European Integration* examines and reconsiders Germany's paramount role in shaping European integration from the aftermath of World War II to the present. This volume meticulously explores the ascendancy of Germany to a dominant position in European politics and economics. It critically engages with the concept of hegemony, delineating Germany's influence on the development of the European Union and its resemblance to historical precedents in German history like the Holy Roman Empire. Methodologically, the book integrates archival research with contemporary literature to craft a historically grounded narrative relevant to current European affairs. The work stands out for exploring Germany's strategic use of economic power and political diplomacy to shape the European Union according to its interests while facing inherent limitations and challenges, such as the eurozone crisis, migration policies, energy dependency, and foreign policy towards Russia. Targeting a diverse audience of both scholars and non-specialists, this book is particularly relevant for those interested in European politics, German history, and international relations.
